PROPATCH FIBRE OPTIC CLEANING KIT

- PROPATCH Connector Cleaning Kit will Clean most connector types in the market today, such as SC, ST, FC, LC on Pigtails, Patch Cords, GBIC's and on Equipment's, both Single-Mode and Multimode connectors. The Cleaning Kit comes in a Plastic resealable container. Each cleaning tool does 500 connectors.
- Poor Network performance in a Fibre Optic Systems is due mainly to dirty connectors/interface. Dirty connectors cause high loss and reflectance which negatively affect network performance, also causes connector damage such as pits and scratches.
- Each component of the Kit can be re-ordered separately so you don't have to order a new Kit every time you run-out of a cleaning item.
- Fibre Cleaning kit included 1x HUX 500 connector clean cassette, 1x 1.25, 1x 2.5mm HUX Pen Cleaner, 1x Alcohol bottle, 200pcs. x Kimwipes, 10pcs. x ISO Wipes, 10pcs. x sticks 2.5mm (SC/FC/ST) and 10pcs. x sticks 1.25mm (LC) Adapters/Couplers.
